EXPERIENCE

Intern Ruby on Rails Developer - Sherpa 09/2023 - Present

1. Converted html.erb view templates into Phlex format, streamlining the view layer of the mailer. This transition optimised rendering performance and code maintainability, benefiting the development team. The project's successful completion improved the mailer's overall efficiency and set a foundation for future view development in Phlex.
2. Engaged in code reviews, standup meetings, and estimation sessions. Demonstrated problem-solving, including utilizing Postman for API testing, creating new code and spec tests, and optimizing workflows through code checks and communication with the QA team and product managers. Leveraged the K9s Dev environment for development processes, contributing to improved overall project efficiency.
3. Noticeable gems used and learnt: Phlex, Premailer, Hotwired/Stimulus, Rspec, factory_bot, VCR, Active Admin, Flipper, Slim, Geocoder, PostGis, arel

Assistant Accountant - Ethan Group 2018 - 2022

1. Designed and implemented VBA macros for automating critical processes, facilitating the conversion of raw data from accounting software into meaningful financial reports within Microsoft Excel. This contribution significantly improved operational efficiency and the company continued to rely on the legacy system I established

SKILLS / TECHNOLOGIES

Ruby on Rails - Javascript - HTML - CSS/SCSS - React - PostgreSQL
Jira - BitBucket - Heroku - Netlify - Redux - Stripe - Firebase - K9s

CERTIFICATIONS

AWS Certified Cloud Practitioner
Certified Practising Accountant

RECENT PROJECTS

SANCBOK <https://github.com/loudringphone/sancbook> Social media platform Ruby on Rails | postgresSQL | SCSS
CRUD systems using Ruby on Rails and PostgreSQL; Gon, Nokogiri, Cloudinary, Google search API & etc; Instant messaging with Ajax

VIDEO STORE <https://videostore.netlify.app/> eCommerce App React | Firebase | Stripe | Redux
Cart, wishlist and search box using Redux; Stripe payment client and server integration; Webhooks and Firebase Cloud Functions

WINSON'S BLOG <https://winstonblog.netlify.app/> Blog Editor React | Firebase | Quill | Chakra UI
Can be used as Headless CMS; Quill custom image handler; Please come and read my articles there!
